CORDLESS
FALL ALERT
SYSTEM

Helping to care.

Falls are the second leading cause of hospital admissions due to injuries and many older people never fully recover from their fall. **cura¹ Cordless Fall Alert Systems** couldn't be more convenient for caregivers and patients, with no cables getting in the way and virtually no chance of damaging the monitor or the pad.

Cordless Monitor

The cordless pad monitor may be powered by a 9V battery or plugged into the AC mains using a plug pack, with the battery acting as back up. Low battery indication is incorporated.

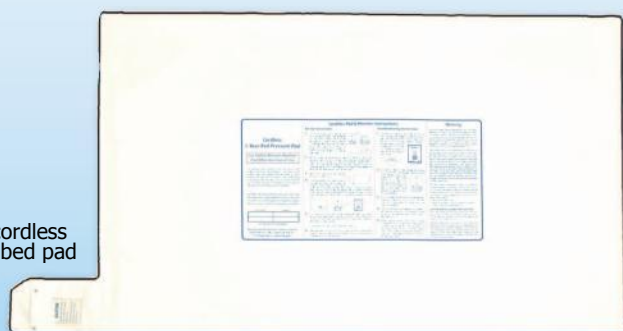

The cordless transmitter is contained in the neck of the pad/mat and can be used with either a chair pad or bed pad or floor mat. It is powered by long life lithium batteries and may be switched off when not in use to extend battery life.

cordless pad/mat transmitter insert

cordless chair pad

cordless bed pad

cordless floor mat

- ▶ Simple operation and maintenance
- ▶ No more cords between monitor and pads
- ▶ Works with cordless bed pads / chair pads / floor mats
- ▶ Alarm memory and auto re-arm
- ▶ Caregiver Key reset option
- ▶ Battery operated or optional external plug pack
- ▶ Adjustable alarm volume and selectable tones
- ▶ Can be connected to a Nurse Call System
- ▶ Warns if contact with transmitter is lost

Accessories

Pads and mats incorporate ultra sensitive durable sensors resulting in virtually no false alarms over the life of the pad / mat.

All pads are highly anti-allergenic, soft PVC for optimum comfort, and have vent facilities in the neck, away from the main area to reduce the risk of moisture ingress.
